October 8, 2007

To Conference Participants and Honored Guests –

Welcome to Palm Springs, California, and to the 9th Annual NATHPO Meeting, “Cultural Heritage Records Management in Indian Country.” This year we have selected a conference theme that is cross-cutting in its impact, implementation, and utility. Deciding what to call the documents and digital images – and who gathers and has access to information – are just a few of the major issues and challenges to be discussed this week.

This year NATHPO is convening a National NAGPRA Meeting. We will discuss current issues in the field of repatriation, as well as the ongoing Makah-NATHPO research project to study the effectiveness of federal agencies in complying with the act. The Makah Indian Tribe received a grant from the National Park Service NAGPRA Grants Program to support the majority of the research being conducted in collaboration with NATHPO. We are happy to convene such a long overdue national meeting. Thank you to the Makah for their support of such an important initiative.

NATHPO continues to offer unique training. This year we are happy to offer a new resource and training initiative to assist in halting the illegal looting and trafficking of Native American ancestors and cultural items. Two units of the National Park Service (the National NAGPRA Program and the Lewis & Clark Heritage Trail) and the Bureau of Indian Affairs-Phoenix Office have provided financial and human resources in this effort. This training is a continuation of our efforts to provide public education and training for tribes, as well as offer special seminars and national meetings to build the base of knowledge in Indian country.

The Agua Caliente Band of Cahuilla Indians and the Spa Resort Casino have been extremely supportive and gracious hosts in preparing for your attendance this year. Special thanks to Richard M. Begay, THPO for the Agua Caliente, and M. Wayne Donaldson, California State Historic Preservation Officer, and their staff and co-workers for statewide support and assistance.

We hope you get a chance to interact with your colleagues from earlier meetings, as well as make new working relationships and friends. A few of the main purposes of the Annual NATHPO Meeting are to bring people together for information sharing, provide the only national showcase for your accomplishments, and celebrate your dedication to preserving American Indian, Alaska Native, and Native Hawaiian cultures.

D. Bambi Kraus
NATHPO President
Founded in 1998, the Association is a national non-profit membership organization of Tribal government officials who implement federal and tribal preservation laws. NATHPO’s overarching purpose is to support the preservation, maintenance and revitalization of the culture and traditions of Native peoples of the United States. This is accomplished most importantly through the support of Tribal Historic Preservation Programs as acknowledged by the National Park Service.

Tribal Historic Preservation Officers (THPOs) have the responsibilities of State Historic Preservation Officers on tribal lands and advise and work with federal agencies on the management of tribal historic properties. THPOs also preserve and rejuvenate the unique cultural traditions and practices of their tribal communities.

NATHPO activities include monitoring the U.S. Congress, Administration, and state activities on issues that affect all Tribes and monitoring the effectiveness of federally mandated compliance reviews and identification, evaluation, and management of tribal historic properties. Examples of completed and ongoing projects: “Tribal Tourism Toolkit for the Lewis and Clark Bicentennial and Other Tribal Opportunities (2002),” and “Many Nations Media Project - News from the Lewis & Clark Trail (2002-5),” and “Treaty Research Project for Continental U.S. (2001).” NATHPO also offers training and technical assistance on federal historic preservation laws.

Principles and Purposes of NATHPO (NATHPO is guided by three main principles)

- Tribal Sovereignty – the inherent right of Indian Nations to self-government
- Confidentiality – recognition of the need to respect the confidentiality of information regarding Native cultural and ceremonial practices and places of religious or cultural significance.
- No boundaries – NATHPO recognizes that the cultural and heritage preservation interests of Indian Nations and their peoples often extend far beyond the boundaries of present-day reservations — often crossing state and national boundaries — and stands ready to assist in activities relating to transboundary cultural and environmental issues.
