Tower Construction Notification

Set Preference Details

In order to assist you in review, you may add language specifying your preferences and procedures. This language will be sent automatically to all applicants whose notifications are referred to you. Many Tribes and NHOs have chosen language describing that if they do not respond to a T&D notification within 30 days, they will be considered to accept the language and procedures specified on the notification. You may also enter a description of your own procedures and preferences.

Examples of possible uses of language:

Select 30-Day Preferences

- Add the following language to be sent to applicants: tested information.

  If the applicant/tower builder receives no response from the Tribe/Tribal Town within 30 days after notification through T&D, the Tribe/Tribal Town has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Tribe/Tribal Town in the event archaeological properties or human remains are discovered during tower construction, consistent with Section 5 of the Nationwide Programmatic Agreement and applicable law.

- Do not add details language. Do not add 30-Day details language.

Additional Details

You may also provide additional details relating to your review of tower notifications. For example, if you do not need to review towers going all along higher rights of ways built after a certain date, you may specify this in the notification. You may also specify, for example, additional information that you wish to receive from applicants.

  - In order to assist you in review, you may add language specifying your preferences and procedures. This language will be sent automatically to all applicants whose notifications are referred to you. Many Tribes and Bands have chosen language specifying that if they do not respond to a TCRG notification within 20 days, they have no interest in participating in pre-construction review for the site. You may choose to use this standard language, or you may enter a description of your own procedures and preferences.
  - Examples of possible types of language.

- Select 30-Day Preferences
  - Add the following language to be sent to applicants. More Information.
  - If the applicant/lender receives no response from the Houlton Band of Maliseet Indians within 30 days after notification through TCNS, the Houlton Band of Maliseet Indians has no interest in participating in pre-construction review for the proposed site. The Applicant/lender must immediately notify the Houlton Band of Maliseet Indians in the event archaeological properties or human remains are discovered during construction, consistent with Section 19 of the Nationwide Programmatic Agreement and applicable law.

- Do not add details language.
